### REPORT LETTER

December 5, 2006

To The Township Board Deep River Township Arenac County Standish, Michigan 48658

We have audited the accompanying financial statements of the Government Activities, each major fund, and the aggregate remaining fund information of the Deep River Township as of and for the year ended June 30, 2006 and 2005, which collectively comprise the Township's financial statements as listed in the table of contents. These financial statements are the responsibility of the Deep River Township's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with United States generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Government Activities, each major fund, and aggregate remaining fund information of the Deep River Township as of June 30, 2006 and 2005, and the respective changes in financial position for the year then ended in conformity with United States generally accepted accounting principles.

The management's discussion and analysis and budgetary comparison information on pages 3 through 7 and 21 through 22 are not a required part of the basic financial statements but are supplemental information required by the Government Accounting Standards Board. We have applied certain limited procedures, which consist principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To The Township Board Deep River Township December 5, 2006 Page 2

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Deep River Township's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and are not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, it is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

QUAST, JANKE AND COMPANY

Certified Public Acco

### Management's Discussion and Analysis

This section of Deep River Township's Annual Financial Report presents our discussion and analysis of the Township's financial performance during the year ended June 30, 2006. Please read it in conjunction with the Township's financial statements, which immediately follows this section.

### **Using this Annual Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Deep River Township financially as a whole. The government-wide Financial Statements provide information about the activities of Deep River Township, presenting both an aggregate view of the Township's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the Township's operations in more detail than the government-wide financial statements by providing information about the Township's most significant funds – the General Fund, Road Fund, Cemetery Fund with all other funds presented in one column as nonmajor funds. The remaining statement, the statement of fiduciary net assets, presents financial information about activities for which the Township acts solely as an agent.

Other Supplemental Information

Reporting the Township as a Whole - Government-Wide Financial Statements

One of the most important questions asked about the Township is, "As a whole, what is the Township's financial condition as a result of the year's activities?" The statement of net assets and the statement of activities, which appear first in the Township's financial statements, report information on the Township as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

#### Management's Discussion and Analysis

These two statements report the Township's net assets – the difference between assets and liabilities, as reported in the statement of net assets – as one way to measure the Township's financial health or financial position. Over time, increases or decreases in the Township's net assets – as reported in the statement of activities – are indicators of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the Township's operating results. However, the Township's goal is to provide services to our residents, not to generate profits as commercial entities do.

The statements of net assets and statement of activities report the governmental activities for the Township, which encompass all of the Township's services, including legislative, general government, public safety, public works and culture and recreation. Property taxes, special assessments, and unrestricted State shared revenue finance most of these activities.

### Reporting the Township's Most Significant Funds - Fund Financial Statements

The Township's fund financial statements provide detailed information about the most significant funds – not the Township as a whole. Some funds are required to be established by State law. However, the Township establishes many other funds to help it control and manage money for particular purposes or to show that it's meeting legal responsibilities for using certain taxes, grants, and other money. The governmental funds of the Township use the following accounting approach:

Governmental funds – All of the Township's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the Township and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds in a reconciliation.

### The Township as a Whole

Recall that the statement of net assets provides the perspective of the Township as a whole. Table 1 provides a summary of the Township's net assets as of June 30, 2006;

TABLE 1:

		Government	al Ac	tivities	
		June 3	0,		
		2006		2005	
Assets					
Current and other assets	\$	302,691	\$	244,796	
Capital assets - Net of accumulated depreciation	_	271,505		302,362	
Total assets		574,196		547,158	
Liabilities					
Current liabilities		<u> 13,244</u>		<u> 14,035</u>	
Net Assets					
Invested in property and equipment		271,505		292,986	
Restricted		46,606		44,304	
Unrestricted		242 <u>,841</u>		195,833	
Total net assets	\$	560.952	\$	533,123	

### Management's Discussion and Analysis

The above analysis focuses on the net assets (see Table 1). The change in net assets (see Table 2) of the Township's governmental activities is discussed below. The Township's net assets were \$560,952 at June 30, 2006. Capital assets reflects the original cost, less depreciation of the Township's capital assets. The remaining amount of net assets (\$302,691) was unrestricted.

The \$302,691 in unrestricted net assets of governmental activities represents the accumulated results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of this year's operations for the Township as a whole are reported in the statement of activities (see Table 2), which shows the changes in net assets for fiscal year 2006 and 2005.

TABLE 2:

TABLE 2.		Covernmen	otal A	otivitioo
		Governmer	ne 30,	
		2006	10 30,	2005

General revenue:				
Property taxes		59,212		62,344
Special voted taxes		46,606		44,980
State shared revenue		125,479		122,529
Other		34.069		<u>58,456</u>
Total revenue		272,816		298,037
Function/Program Expenses				
Legislative		30,557		34,756
General Government		113,607		119,291
Public Safety		34,892		31,967
Public Works		63,097		88,102
Cultural and Recreation		2,544		7,301
Interest on Long-Term Debt		290		1,857
Total expenses		244,987		283,274
Increase in Net Assets	<u>\$</u>	27.829	\$	<u>14,763</u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$244,987. Certain activities were partially funded from those who benefitted from the program or by other governments and organizations that subsidized certain programs with grants and contributions. We paid for the remaining "public benefit" portion of our governmental activities with \$105,818 in taxes, \$125,479 in State shared revenue, and with our other revenues, such as interest and other.

The Township experienced an increase in net assets of \$27,829. The increase in net assets differs from the change in fund balance and reconciliation appears on page 14.

As discussed above, the net cost shows the financial burden that was placed on the State and the Township's taxpayers by each of these functions. Since property taxes for operations and State shared revenues constitute the majority of Township operating revenue sources, the Board of Trustees must annually evaluate the needs of the Township and balance those needs with State-prescribed available unrestricted resources.

### Management's Discussion and Analysis

### The Township's Funds

As we noted earlier, the Township uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the Township is being accountable for the resources taxpayers and others provide to it and may provide more insight into the Township's overall financial health.

As the Township completed this year, the governmental funds reported a combined fund balance of \$289,447, which is an increase of \$49,311 from last year. The General Fund, our principal operating fund, the balance increased \$47,558. Overall, actual General Fund revenues were within 87% of budgeted amounts, and expenditures were within 80% of budgeted amounts.

The Road Fund fund balance increased \$2,303.

### **Budgetary Highlights**

Over the course of the year, the Township revises its budget as it attempts to deal with changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule showing the Township's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information of these financial statements. Changes to the original budgets were as follows:

All Budgeted Funds -

- There were only minor minimal increases in budgeted expenditures, if any.
- There were no significant variances between the final budget and actual costs.

### **Capital Asset and Debt Administration**

### **Capital Assets**

At June 30, 2006, the Township had \$556,781 invested in a broad range of capital assets, including land, buildings, vehicles, and equipment. This amount represents a net increase (including additions and disposals) of \$1,149.

	2006	2005
Land and improvements Buildings and improvements Vehicles Equipment	\$ 88,502 222,674 162,892 82,713	\$ 88,502 222,674 162,892 81,564
Total capital assets	556,781	555,632
Less accumulated depreciation	<u>285,276</u>	253,269
Net capital assets	<u>\$ 271,505</u>	<u>\$ 302,363</u>

This year's additions of \$1,149 consisted of a safe.

### Management's Discussion and Analysis

### **Economic Factors and Next Year's Budgets and Rates**

Our elected officials consider many factors when setting the Township's 2007 fiscal year budget. One of the most important factors affecting the budget is the State of Michigan's economy. This resulted in a \$3,000 increase in State shared revenues in the year ended June 30, 2006, however, cuts may be forthcoming in 2007.

### Contacting the Township's Financial Management

This financial report is designed to provide the Township's citizens, taxpayers, customers, and investors and creditors with a general overview of the Township's finances and to demonstrate the Township's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Deep River Township, 511 State St, Sterling, MI 48659.

### DEEP RIVER TOWNSHIP ARENAC COUNTY, MICHIGAN

### NOTES TO FINANCIAL STATEMENTS June 30, 2006

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Deep River Township is located in Arenac County and operated under an elected Board of Trustees (5 members) and provides services to its residents in many areas. The financial statements of the Township have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

#### A. REPORTING ENTITY:

In evaluating how to define the Township for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB No. 14. The basic - but not the only - criteria for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of the ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the Township is able to exercise oversight responsibilities.

#### Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of the interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the Township's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identified with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as soon as all eligibility requirements imposed by the provider have been met.

### DEEP RIVER TOWNSHIP ARENAC COUNTY, MICHIGAN

### NOTES TO FINANCIAL STATEMENTS June 30, 2006

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes taxes and unrestricted State aid.

Fund-based Statements - Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within approximately 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Fiduciary Fund statements are also reported using the economic resources measurement focus and the modified accrual basis of accounting.

The Township reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

Road Fund - The Road Fund is used to record property tax revenue, interest earnings and other revenue restricted for use on Township roads.

Assets, Liabilities, and Net Assets or Equity

Deposits - Cash and cash equivalents include cash on hand and demand deposits.

Receivables and Payables - In general, outstanding balances between funds are reported as " due to/from other funds". Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as " advances to/from other funds".

Property taxes are assessed as of December 31 and the related property taxes become a lien on December 1, of the following year. These taxes are due on February 14 with the final collection date of February 28 before they are added to the County tax rolls.

Prepaid Items - Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both entity-wide and fund financial statements.

### DEEP RIVER TOWNSHIP ARENAC COUNTY, MICHIGAN

### NOTES TO FINANCIAL STATEMENTS June 30, 2006

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Capital Assets - Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the Township as assets with an individual cost of more than \$300 and an estimated useful life in excess or one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset lives are not capitalized.

Buildings, equipment, land improvements and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and additions20-50 yearsVehicles5 yearsOffice furnishings5-20 yearsOther equipment5-20 years

Compensated Absences - There is no liability for compensated absences reported in the government-wide statements since no township employees are provided with sick or vacation pay benefits.

Long term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

### NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Budgetary Information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles and State law for the General and Special Revenue Funds. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the Township to have its budget in place by April 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits entities to amend their budgets during the year. There were no significant amendments during the year.

Excess of Expenditures Over Appropriations in Budgeted Funds - The Township did not have significant expenditure budget variances.

Fund Deficits - The Township had no accumulated fund balance deficits.

### DEEP RIVER TOWNSHIP ARENAC COUNTY, MICHIGAN

### NOTES TO FINANCIAL STATEMENTS June 30, 2006

### NOTE 3. CASH AND DEPOSITS WITH FINANCIAL INSTITUTIONS:

Deposits of the Township are carried at cost and maintained at Citizens Bank, Independent Bank and Chemical Band, federally insured banks.

State statutes and the Township's investment policy authorize the Township to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have an office in Michigan; the Township is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The Township's deposits are in accordance with statutory authority.

At year end, the Township's deposits were reported in the basic financial statements in the following categories:

	Governmental	Fiduciary	Total Primary
	Activities	<u>Funds</u>	Government
Cash	<u>\$ 271,905</u>	<u>\$ 8,516</u>	\$ 280,421

The Government Accounting Standards Board Statement No. 3 requires the amount of total bank balances to be classified in one of three categories of credit risk. These categories are:

- (1) Insured or collateralized with securities held by the entity or by its agent in the entity's name.
- (2) Collateralized with securities held by the pledging financial institution's trust department or agency in the entity's name.
- (3) Uncollateralized (This includes any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent by not in the entity's name). Bank deposits including certificates of deposit:

Net Capital Assets	<u>\$ 302,363</u>	<u>\$(30,858</u> )	<u>\$</u>	<u>\$ 271,505</u>

Depreciation expense was charged to activities of the Township as follows:

Governmental activities	\$ 8,333
Public safety	22,643
Recreation and culture	1,031
Total government activities	<b>\$ 32,007</b>

### NOTE 5. RISK MANAGEMENT:

The Township is exposed to various risks of loss related to property loss, errors, omissions, employee injuries, and workman's compensation benefits.

The Township has purchased commercial insurance for general liability, errors and omissions, physical damage for equipment, buildings and contents and workers compensation. Settled claims for the commercial insurance have not exceeded the amount of insurance coverage in any of the past 3 years. There was no reduction in coverage obtained through commercial insurance during the past year.

### NOTE 6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS:

The amounts of interfund receivables and payables are as follows:

Fund	Interi <u>Rece</u>	fund <u>ivable</u>	<u>Fund</u>		terfund ayable
General Fund General Fund General Fund	\$ 	1,100 1,090 <u>7,416</u>	Current Tax Collections Cemetery Fund Trust and Agency	\$ —_	1,100 1,090 7,416

### DEEP RIVER TOWNSHIP ARENAC County, Michigan

### NOTES TO FINANCIAL STATEMENTS <u>June 30, 2006</u>

### NOTE 6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (continued):

Operating transfers during the year:

	<u>Transfers In</u>	Transfers Out			
General Fund Cemetery Fund	\$ - 2,500	\$ 2,500			
	<u>\$ 2,500</u>	\$ 2,500			

Transfers are used to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### NOTE 7. LONG-TERM DEBT:

The Township entered into the installment purchase obligation to acquire a fire truck and a 2002 Chevrolet pickup. As of June 30, 2006, both installment purchase obligations were retired.

Long-term debt activity can be summarized as follows:

	Beginning <u>Balance</u>	Additions (Reductions)	Ending <u>Balance</u>		
Governmental Activities: Installment purchases: Fire Truck 2002 Chevrolet	\$ 1,874 7,502	\$ (1,874) (7,502)	\$ - 		
Total Governmental Activities	<u>\$ 9,376</u>	<u>\$ (9,376</u> )	<u>\$</u>		

#### NOTE 8. PENSION PLAN:

Deep River Township has a defined contribution plan for employees other than elected officials or parttime workers, through Manulife. A defined contribution pension plan provides pension benefits in return
for services rendered, provides an individual account for each participant, and specifies how contributions
to the individual's account are to be determined instead of specifying the amount benefits the individual
is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend
solely on the amount contributed to the participant's account, the amount earned on investments of these
contributions, and forfeitures of other participant's benefits that may be allocated to such participant's
account.

The Township's pension plan agreement specified which Township positions are covered by the plan. Contributions made by an employee and the Township vest immediately. An employee that leaves the employment of the Township is entitled to his or hear account balance consisting of the employee and Township contributions, as well as earnings in the account. Effective January 1, 2006, the Township contribution was reduced to 1% of annual compensation for elected officials and 7.5% for other covered employees
